Be Inspired

Connect to your creative side while exploring more than 100 sites that celebrate Ohio's contributions to the arts!

Ways to Experience the Trail

Take a **multi-media approach** by visiting all the sites in a particular region.

Or, **tour based on the art medium** (or theme), such as visual arts, glass and pottery, carousels, folk and traditional arts, music and literature/illustrations. Use the online map to filter by theme, or use this document as your guide!

america250-ohio.org/ohio-creativity-trail

The Ohio Creativity Trail is part of an America 250-Ohio program celebrating Ohio's incredible stories through driving trails.

Visual Arts

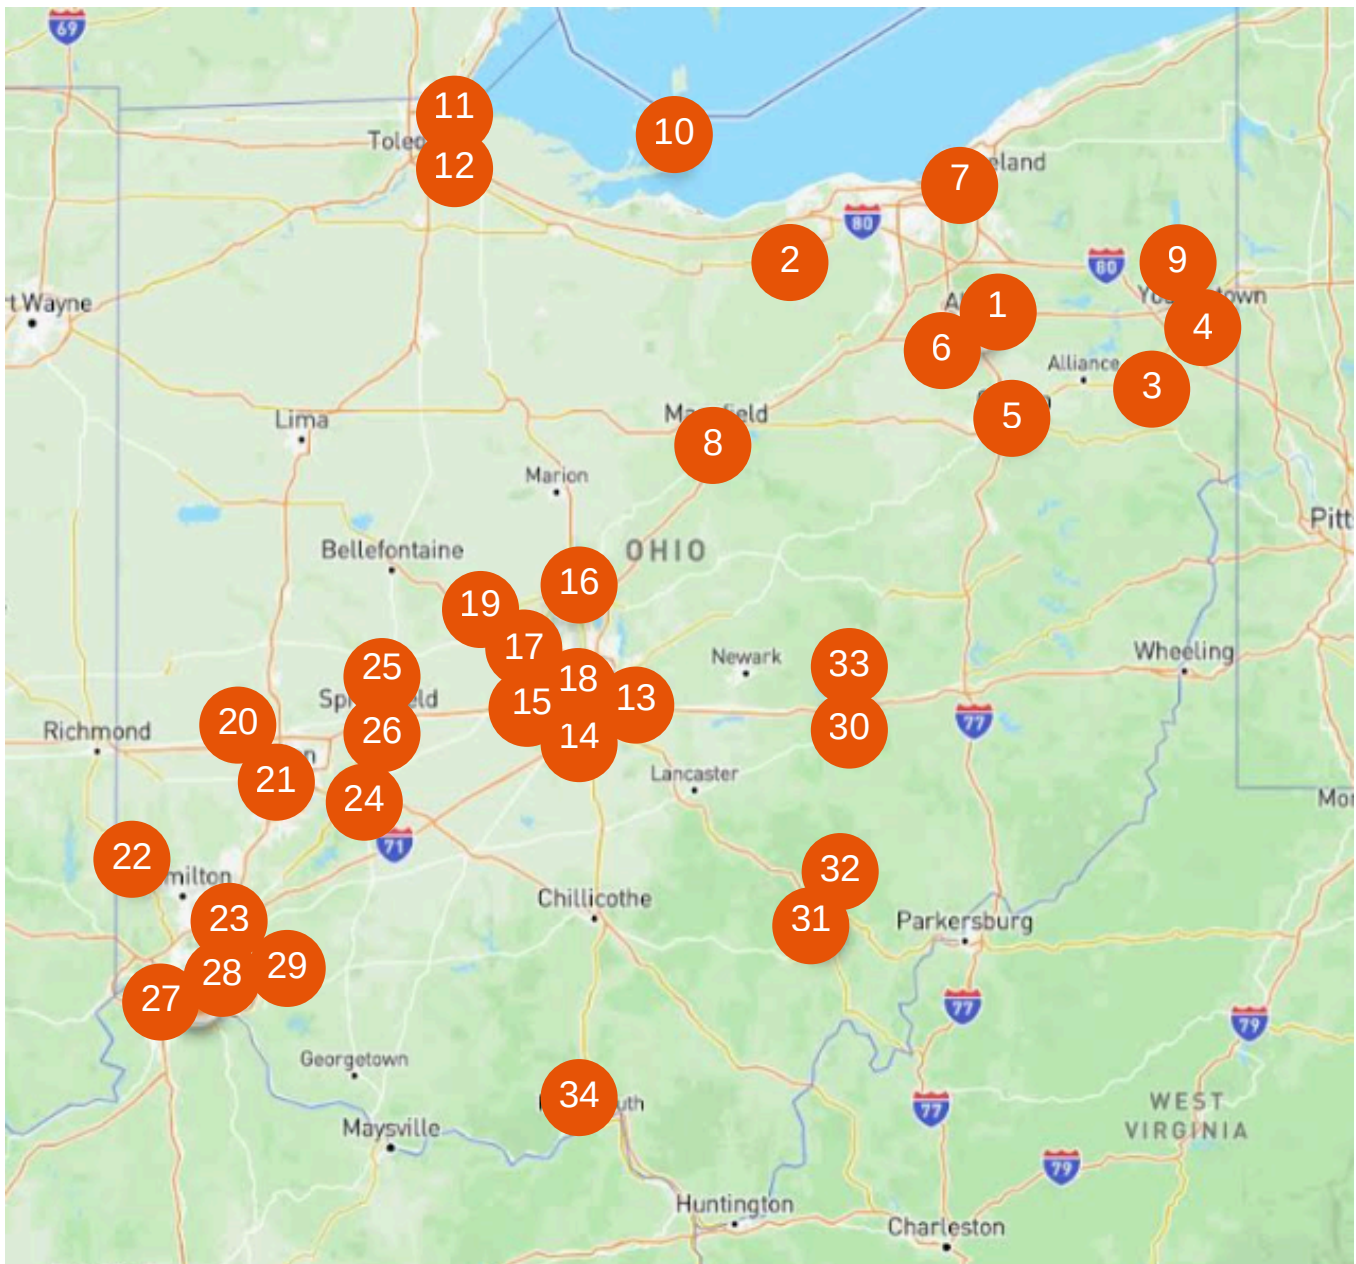

painters, sculptors, photographers

Ohio is a destination for art lovers. World-class museums and vibrant art scenes are found throughout the state. Early industrialists, like John D. Rockefeller and Edward Drummond Libbey, established museums through financial gifts or by donating their personal art collections. A new approach to philanthropic funding emerged in Ohio, with The Cleveland Foundation—recognized as the world’s first nonprofit foundation—leading the way for future contributions to support the arts and local communities.

Notable artists with ties to Ohio made their marks on various movements, including George Bellows and John Sloan in the Ashcan School, and Roy Lichtenstein in Pop Art. The Cleveland School, a network of artists founded in 1910, was influenced by the Arts and Crafts movement. Moses Jacob Ezekiel, the first Jewish-American sculptor recognized internationally, studied at the Cincinnati Art School. Cleveland artist Julian Stanczak pioneered the Op Art movement.

Please confirm days and hours of operation, as some sites have limited access. You may also want to plan visits around demonstrations, special events, lectures and hands-on workshops, so please refer to each site’s website for information.

Northeast

1 Akron Art Museum

Showcasing regional, national and international works since the 1850s, this museum is particularly strong in contemporary painting and sculpture and 20th century photography, including the works by Ohio State University grad Joan Liftin. This celebrated photographer aimed to “live life authentically, and to be ruthless in documenting that life,” wrote an art colleague. Liftin’s photographs capture authenticity with a style that evokes a range of emotions.

[Akron/Summit Convention & Visitors Bureau](#)

2 Allen Memorial Art Museum

The Allen Memorial Art Museum is recognized as one of the nation’s top academic art museums. Visitors to this intimate museum are greeted with the museum’s motto carved above the arched entryway - “The Cause of Art is the Cause of the People” by William Morris. This quote perfectly describes the museum’s commitment to sharing art, and the museum even rents original works of art to students to hang in their dorm rooms.

On the Page

authors, poets, picture book illustrators, cartoonists

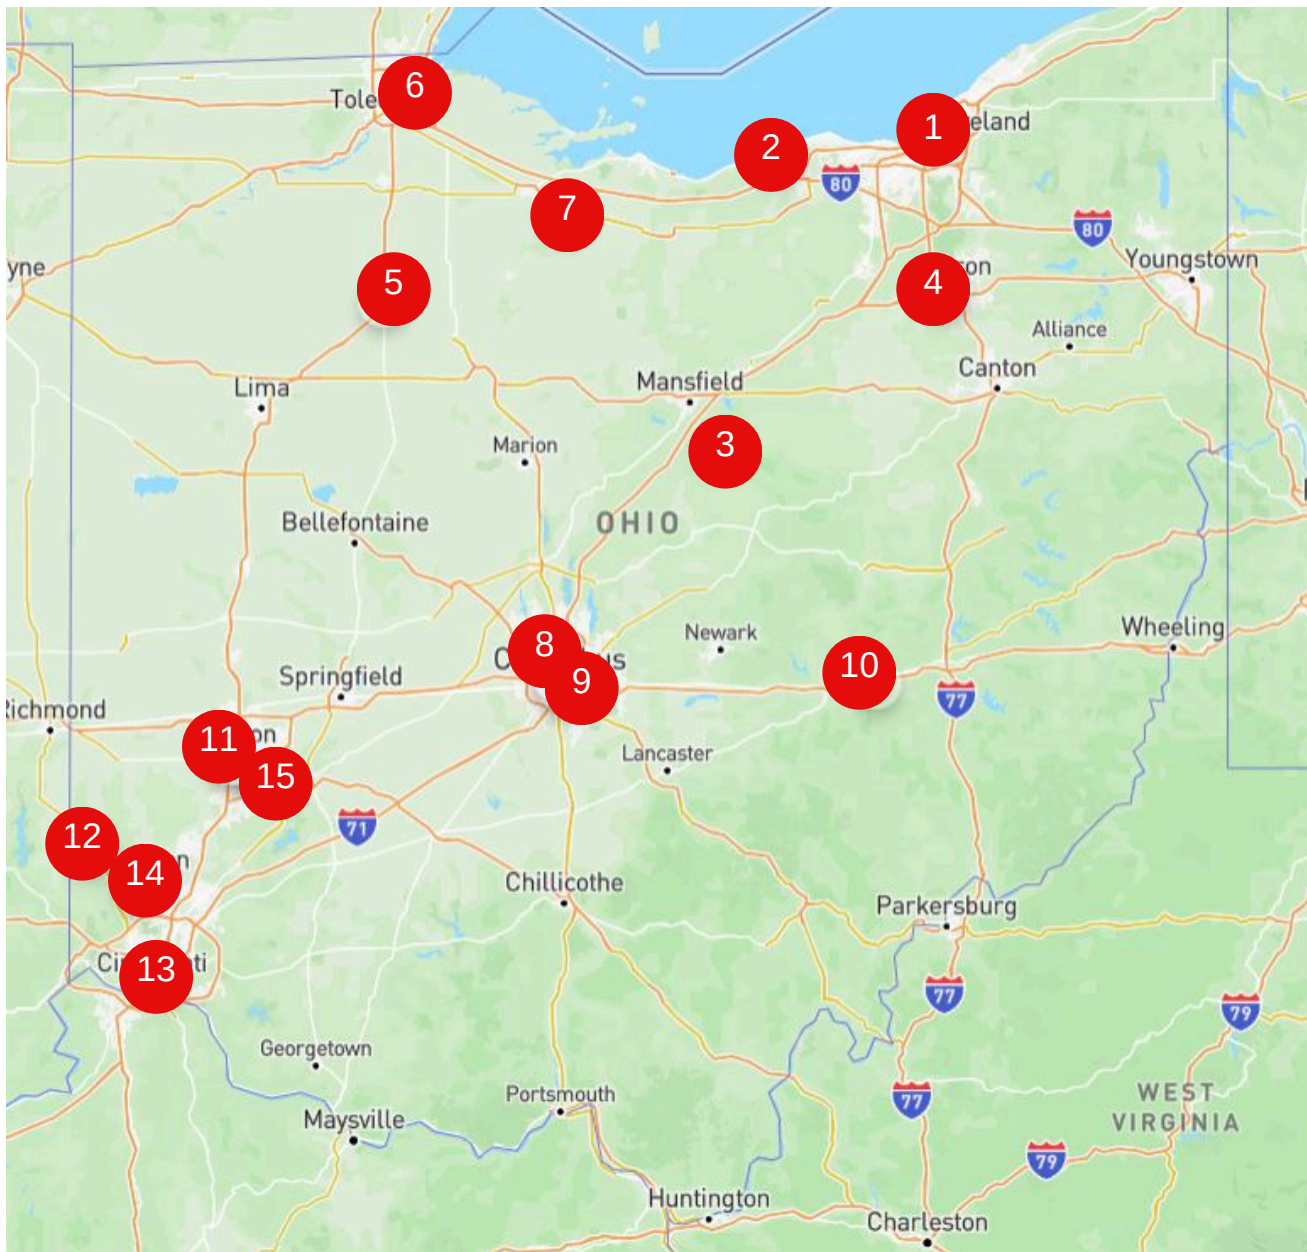

“All water has a perfect memory and is forever trying to get back to where it was. Writers are like that: remembering where we were, what valley we ran through, what the banks were like, the light that was there, and the route back to our original place,”

Nobel Prize-winning author Toni Morrison from Lorain.

Ohio is the “original” place to many celebrated storytellers, including Toni Morrison (Lorain), Sherwood Anderson (Clyde), James Thurber (Columbus), Harriet Beecher Stowe (Cincinnati), and Superman creators Jerry Siegel and Joe Shuster (Cleveland). Through their words and illustrations, Ohioans create new worlds, inspire change and foster community healing.

Music

singers, songwriters, musicians, instrument makers

Ohio has long been at the center of music movements, with Cleveland being known as the birthplace of the term “rock and roll.” Dayton, Columbus, Toledo, Akron and others fostered local musicians and helped bands rise in popularity. Ohio’s contribution to music extends across the boundaries of genres and even created new ones. Ohio musicians blended blues, jazz, and country into new forms such as funk and hip-hop. The state’s central location between other music hubs exposed artists to different styles and helped spread their new sounds to Nashville, New York and Chicago. Musical opportunities still abound throughout the state of Ohio.

Please confirm days and hours of operation, as some sites have limited access. Plan to take in some live music during your tour by clicking on the visitor information for each listing. Many of these visitors bureau sites have events calendars featuring what’s happening at listening rooms, concert venues, theatres, local wineries, etc.

Glass & Pottery

artisans, glass blowers, ceramics artisans

Ohio's rich deposits of sand, clay, and limestone provided the raw materials for Indigenous peoples to craft practical and ceremonial items. Later, this abundance of materials, along with shipping and rail access, led to a thriving pottery industry in cities like East Liverpool and Zanesville. Ohioans played key roles in the Studio Glass Movement and the American Art Pottery Movement. Cincinnati became a center for decorative arts with the Rookwood Pottery Company, known for its innovative blend of American and Japanese aesthetics. Known as the "Glass City," Toledo inspires artists to push creative boundaries. Across Ohio, countless opportunities await to discover unique artistic and functional pieces, learn from skilled experts, and experience the stories that breathe life into these astonishing designs.

Carousels

carvers, band organs, working carousels

Carousels evoke nostalgia, especially in Ohio, home to one of the largest collections in the United States. Introduced by German immigrants, carousels and carousel carving quickly took hold in the nation. The first carousel to operate in the United States is said to have occurred in Hessville, Ohio, in the 1840s. Cincinnati soon became home to two carousel manufacturers during the art form's heyday. In 1986, Carousel Works out of Mansfield revitalized the tradition after decades of dormancy. When the company closed following the pandemic, several of these artisans set up shop in Ohio to continue the legacy. Ohio also influenced carousel music, with two band organ companies - Wurlitzer Company (founded in Cincinnati) and the Stinson Band Organ Company (Bellefontaine).

Please confirm days and hours of operation, as some sites have limited access and only operate seasonally. Please refer to each site's website for information.

Folk & Traditional Arts

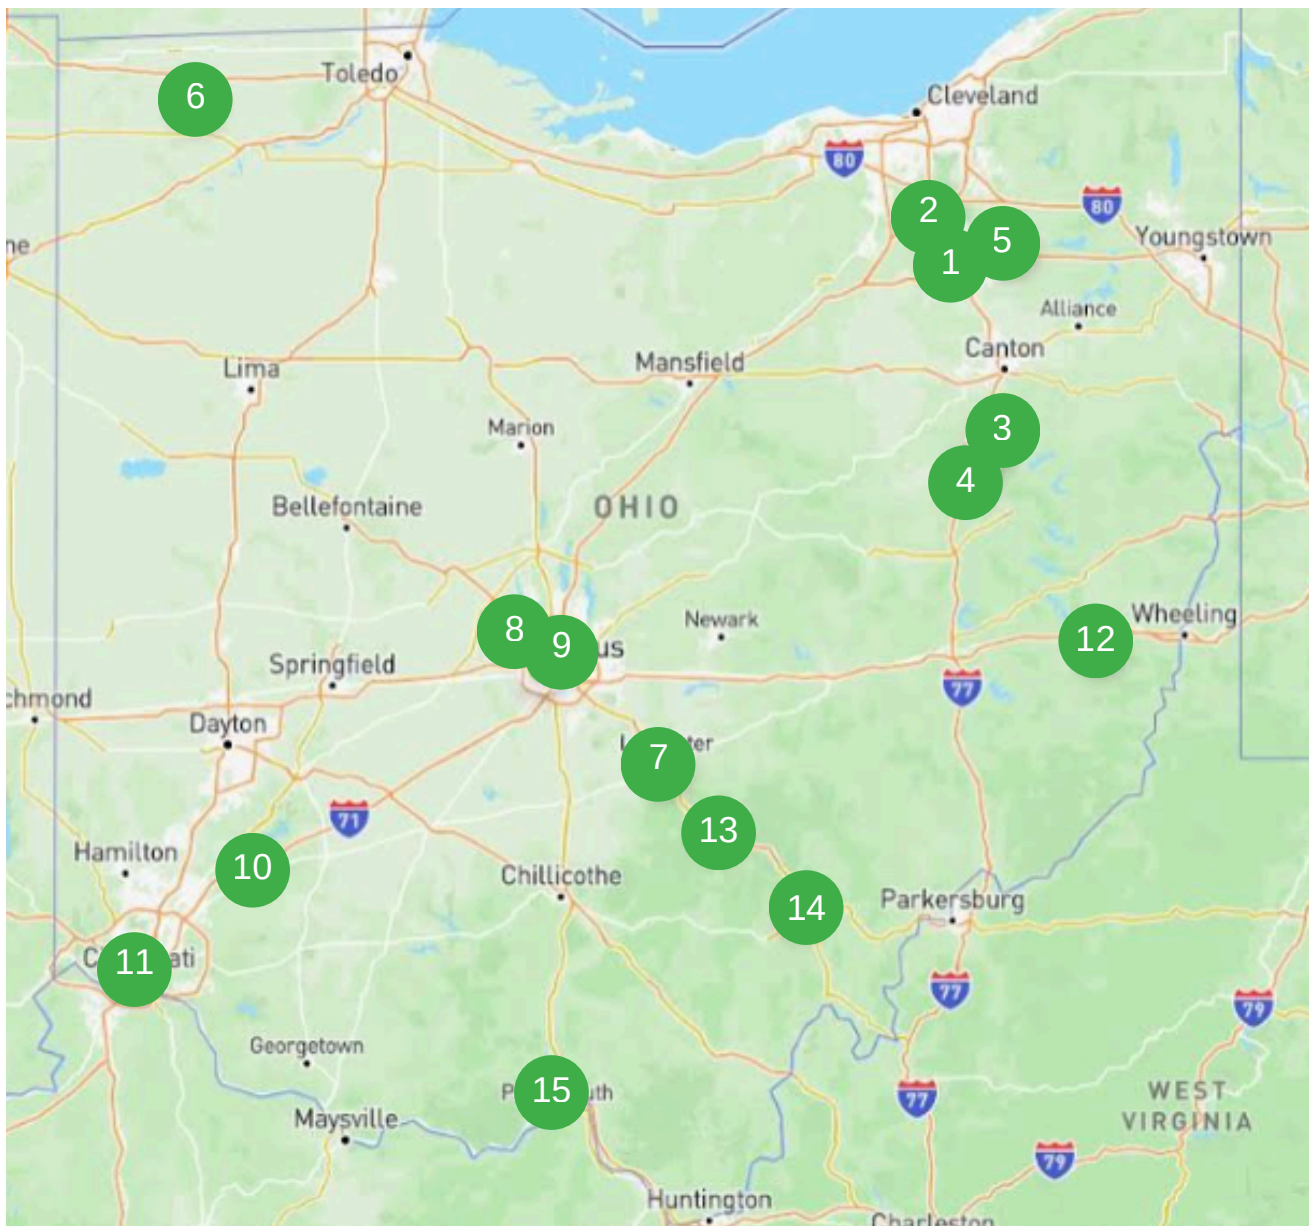

designers, masters, creators of functional art

Ohio has made significant contributions to the arts through its influence on fashion, advertising, and folk traditions, blending creativity, craftsmanship, and innovation. The state's role in textile production, introduction of department stores, and the work of influential designers such as Charles James and Isabel Toledo highlight its impact on fashion history. Likewise, Ohio's legacy in advertising is prominent, exemplified by the iconic Mail Pouch Tobacco barn ads and the Goodyear Blimp, which demonstrate the state's pioneering spirit in visual communication and marketing.

Ohio's vibrant folk-art traditions, influenced by its diverse immigrant, regional culture and religious communities, showcase the state's commitment to preserving heritage through quilting, woodworking, and storytelling. From the minimalist yet elegant designs of Shaker artisans to the intricate carvings displayed at the Warther Museum, the question of whether function or beauty holds greater importance need not have an answer. Ohioans value their heritage, which is reflected not only in building preservation but also in the ways traditional folk art practices are preserved, taught, and celebrated.

Please confirm days and hours of operation, as some sites have limited access. You may also want to plan visits around demonstrations, lectures and workshops, so please refer to each site's website for information.
